TECHNICAL SKILLS

Languages: Python · SQL · PHP · R · HTML · CSS
Frameworks: React · Odoo ERP
Databases: PostgreSQL · MySQL
BI & Data: Power BI · Excel · Data Vizualization
Dev Tools: Git · GitHub · VS Code
AI / Prompt: LLMs · Prompt Engineering

SOFT SKILLS

- Team Leadership
- Analytical Thinking
- Project Management
- Team Management
- Communication
- Adaptability

EDUCATION

MCA
Bharathiar University
Gobi Arts & Science College
2024 – 2026

BSc Computer Science
Bharathiar University
Gobi Arts & Science College
2021 – 2024

LANGUAGES

Tamil: Fluent (Native)
English: Fluent (Professional)

PROFESSIONAL SUMMARY

An MCA graduate characterized by a passion for innovation and a "solutions-first" mindset. Demonstrated ability to lead teams through complex projects and a commitment to mastering diverse programming languages like Java, Python, and SQL. Highly adaptable and fluent in multiple languages, making for an effective communicator in any collaborative environment.

WORK EXPERIENCE

Full Stack Python Developer — Intern Nov 2025 – Apr 2026
Coactions Info Tech | ERP-Based Youth Engagement & Fund Management Platform

- Built a custom Odoo admin module in Python + PostgreSQL for 50+ users, boosting project tracking efficiency by 30%.
- Resolved 20+ critical bugs during UAT — delivering a zero-blocker release and accelerating go-live by ~2 weeks.
- Designed normalised PostgreSQL schemas enabling real-time dashboard refresh for fund managers.

Junior Data Analyst — Intern May 2025 – Jun 2025
Coactions Info Tech | Fund Tracking System for NGOs

- Designed and deployed 5+ Power BI dashboards automating weekly reports, saving ~10 hours/week of manual work.
- Led a 4-person team end-to-end — from requirements to stakeholder demo — with zero missed milestones.
- Ran social media analytics campaigns, increasing donor engagement by 15% within 6 weeks.

Full Stack Developer & Data Analyst Aug 2025 – Mar 2026
Academic Project | GASC Blood Donor Bridge

- Built a campus-wide blood donation platform (PHP, MySQL, HTML/CSS) with real-time donor matching in emergencies.
- Implemented secure registration with hashed credentials and role-based access for the full campus user base.
- Optimised SQL queries enabling instant cross-blood-type matching, reducing search latency under critical conditions.

CERTIFICATIONS

- Basics of Python — Infosys
- Software Engineer Intern Certification — HackerRank
- Frontend Developer [React] — HackerRank
- Data Visualization Job Simulation — Tata
- Data Analytics Masterclass — Pantech Pro Ed
- Prompt Engineering, Skills Build Orientation — IBM / Edunet
- Solution Architecture Job Simulation — AWS
- Software Engineering Job Simulation — Accenture
- 30-Day Data Analytics Masterclass — NoviTech R&D
